

ARCHITECTURAL PRODUCTS

PROVIDING THE BEST OF BOTH WORLDS

Accentuating the ceiling
without sacrificing performance.

 *KRUEGER*

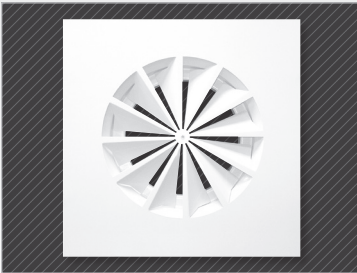

Prism Ceiling Diffuser

- One-piece face plate provides ability to quickly retrofit projects originally designed with perforated diffusers.
- Steel construction with round or square inlet.
- Exceptional performance characteristics.
- Nine standard appliqué colors (custom colors and logo screening available).
- Diffuser available without appliqué.

PLQ & PLQR Plaque Face Ceiling Diffusers

- Ideal for use in open office spaces.
- Steel construction.
- One-piece, non-folded, square (PLQ) or round (PLQR) face plate.
- Plaque attaches to a one-piece, stamped backpan by hooks.
- Round inlet sizes: 6", 8", 10", 12", 14", & 15".

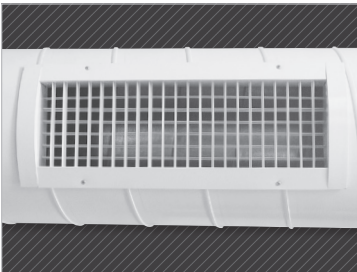

KSD Swirl Diffuser

- Ideal for use in open office spaces.
- Aluminum construction.
- High capacity airflow.
- Aesthetically pleasing swirl appearance.
- Round inlet sizes: 6", 8", 10", 12", 14".

RPN & CRN Air Nozzles

- Ideal for large areas requiring long throws.
- Surface mount, punkah nozzle (RPN) and concentric ring nozzle (CRN).
- Aluminum (RPN & CRN) or steel (CRN) construction.
- Foam gasket and mounting screws.
- Directional air pattern control that is adjustable from the face.

DMG Series of Duct Mounted Grilles with Radius Endcap

- Ideal for use on spiral duct.
- Aluminum construction.
- Adjustable horizontal or vertical front blades.
- Blades spaced on 3/4" centers.
- Sizes: 10"x3" to 48"x10".
- Fits duct diameters from 6" to 36".
