

Introduction: AF Series

The Krueger airfoil supply grilles feature individually adjustable aluminum airfoil blades, which provide an aesthetically pleasing look while improving the performance of the grille. The AF80 (steel frame) and AF580 (aluminum frame) single deflection grilles and the AF880 (steel frame) and AF5880 (aluminum frame) double deflection grilles feature the airfoil blades on 3/4" centers, available in either horizontal or vertical front blade orientation.

MODELS

- AF80 - Single Deflection, 3/4" Spacing Airfoil Grille, Steel Frame
- AF580 - Single Deflection, 3/4" Spacing Airfoil Grille, Aluminum Frame
- AF880 - Double Deflection, 3/4" Spacing Airfoil Grille, Steel Frame
- AF5880 - Double Deflection, 3/4" Spacing Airfoil Grille, Aluminum Frame

FEATURES

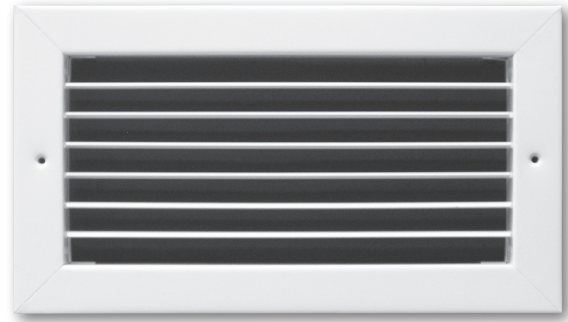

- Horizontal (H) or vertical (V) front blades.
- Fully adjustable blades.
- Extruded aluminum blades.

ACCESSORIES

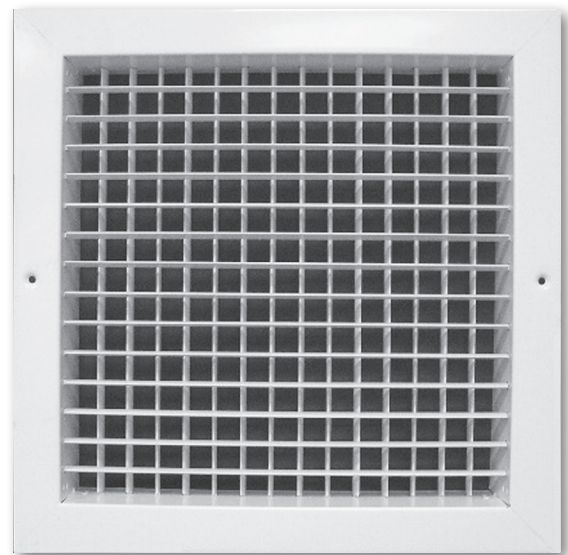

- Steel Opposed Blade Damper (Model OBD)
- Aluminum Opposed Blade Damper (Model 5OBD)
- Plaster Frame (Model 8PF & 58PF)

FINISHES

- Standard finish is #44 British White.
- Optional finishes available.
