

ABH

Introduction: ABH

The ABH exposed corner mounted chilled beam is great for smaller rooms where the supply air will only be needed in one direction, such as a hotel room or office. This product has several options available to meet different engineering requirements and building needs.

MODEL

ABH - Active Corner Mounted Exposed

FEATURED OPTIONS

(See **STANDARD OPTIONS** on Page C3-17)

- 2 nozzle sizes available.
- Available in lengths from 72" to 196" (4" increments).
